<u>Scrum Results Sheet</u>:
Team Number: 20 **Date:** 03/23/2021 **Scrum Leader:** Elise Hlady

Name #1	**Nick Hamilton**
	Since last scrum: Nothing! Couldnt find cable anywhere
	Working on today: Making sure I can actually run linux on custom hardware, ditching debugger gonna resort to printfs() rip.
	Roadblocks: Cant use debugger
Name #2	**David Onak**
	Since last scrum: Running a test GUI python file on the Soc using my VGA cable to an old monitor, using the default hardware
	Working on today: Writing a python file to run the GUI on the Soc rather than the c file I had from before
	Roadblocks:
Name #3	**Elise Hlady**
	Since last scrum: Familiar with Linux and python on the linux. Garbot is printed and assembled!
	Working on today: Finding a way to send the photo from the RPi to the DE1..
	Roadblocks: Still no FTDI chip??? No internet on the DE1, limited python modules.
Name #4	**Lance Holland**
	Since last scrum: Finished max pooling controller
	Working on today: Write the next controller
	Roadblocks:
