<u>Scrum Results Sheet</u>:
Team Number: 20 **Date:** 03/25/2021 **Scrum Leader:** David Onak

Name #1	**Nick Hamilton**
	Since last scrum: Able to run C program with custom hardware on linux.
	Working on today: Going to try and start to create an actual firmware file and structure it properly. Also going to look into C file communicating with GUI
	Roadblocks:
Name #2	**David Onak**
	Since last scrum: Created a basic GUI frame on the Soc using the built in hardware
	Working on today: Polish GUI screen and add GUI prompts that will be shown based on given inputs to the python file
	Roadblocks:
Name #3	**Elise Hlady**
	Since last scrum: Set up sftp connection through ethernet cable, able to send a photo to the DE1!
	Working on today: Automating the file-sending process once the photo gets taken, start with RFS chip.
	Roadblocks: ESP-WROOM-02 does not work well for large file transfer according to the tutorials, had to find another way to transfer the photo
Name #4	**Lance Holland**
	Since last scrum: Wrote the dense controller & convolution controller
	Working on today: Rewrite the controllers to interact with SDRAM instead of SRAM
	Roadblocks:
