Name #1	**Nick Hamilton**
	Since last scrum: Realized model made a mistake, accuracy got way worse after fixing, so trying to make it better.
	Working on today: Making accuracy better
	Roadblocks:
Name #2	**David Onak**
	Since last scrum: Creating a basic app for Garbot
	Working on today: Adding server connections to the app for showing stats and controlling bins
	Roadblocks:
Name #3	**Elise Hlady**
	Since last scrum: Server up and running well, able to open the correct bin based on the POST request.
	Working on today: CLeaning up image detection for demo, working with David to get the frontend connected to the backend/ calling the right endpoints
	Roadblocks: Some spotty-ness in the motors responding to the echo controls from nodejs
Name #4	**Lance Holland**
	Since last scrum: Finished basic versions of the three accelerators (they still need a lot of work)
	Working on today: Write module 2 report
	Roadblocks:
