<u>Scrum Results Sheet:</u>
Team Number: 20 **Date:** 02/22/2021 **Scrum Leader:** David Onak

Name #1	**Nick Hamilton**
	Since last scrum: Started training ML, but val_loss appears to be fixed. Something is wrong with my model I think.
	Working on today: Get this to work properly
	Roadblocks: Model doesn't actually train, stays consistently bad after many epochs. Figure this out.
Name #2	**David Onak**
	Since last scrum: Working on a basic C function that can be used to make a GUI
	Working on today: Look into android studio for creating an app
	Roadblocks: Can't get working drivers for the mouse and keyboard using the usb port and issues getting VGA connection
Name #3	**Elise Hlady**
	Since last scrum: Working code for motor control. Basic image detection model working on RPi. RPi takes a photo when it detects an object.
	Working on today: Adding a server onto the RPi in nodejs for the app.
	Roadblocks: Changed image detection models due to frame rate issues
Name #4	**Lance Holland**
	Since last scrum: Looked into machine learning layers which could be accelerated
	Working on today: Begin writing the accelerator
	Roadblocks:
